Key Points
- Define covered and noncovered services
- Adopt pre-testing strategy as a triage tool
- Charges are proportional to products and services
- Document financial responsibility
- Separate physician and facility
- Follow co-management best practices
- Follow ASCRS/AAO, CMS guidance for FS laser
- Provide choices, not a one-size-fits-all solution

Critical Distinction
- How does routine cataract surgery differ from refractive cataract surgery?

Critical Distinction
- Routine Cataract Surgery
  - Copes with cataract alone
- Refractive Cataract Surgery
  - Also, addresses:
    - Astigmatism
    - Presbyopia

Covered by Insurance?
- Covered
  - Exam or consultation
  - Biometry
  - Surgery and postop
  - Conventional IOL
  - Facility fee
  - Anesthesia
- Not covered
  - Refraction
  - Tests for ammetropia
  - Refractive surgery
  - IOL upgrade
  - Added facility fee
  - Extended postop care
Covered vs. Non-covered

- Covered
- Follow insurance rules

- Not covered
- Patient pay

### Logic of Professional Fee

1. List of tasks appropriate for the patient’s needs
2. Frequency of task(s) based on protocol, experience
3. Assign usual and customary charge
4. Calculate weighted average for each task
5. Sum for global fee

### Charges for Non-covered Services

Need To Be Defensible

“...(for non-covered services) the physician’s charge to the patient is not limited to the Medicare physician fee schedule. Nevertheless, the physician must be able to justify the charge to the patient. If the patient is charged for a series of diagnostic tests, the charge for those tests must be defensible. One way to assess the propriety of the charge is whether they are consistent with what the physician would otherwise charge a self-pay patient for the same services.”

### Approach To Cataract Patients

- Ask cataract patients if they want choices
- Obtain written consent for preoperative testing
- Assess test results
- Offer reasonable refractive cataract surgery options
Patient Choices

- Conventional surgery, aspheric IOL
- Monovision
- Surgical correction of corneal astigmatism (SCOCA)
- Astigmatism-correcting IOL
- Presbyopia-correcting IOL
- P-C IOL + SCOCA

Patient Choices

- Aspheric IOL

FS Laser Guidance

- January 2012 ASCRS/AAO joint guidance
- Providers may not “balance bill” a Medicare patient or his or her secondary insurer for any additional fees to perform covered components of cataract surgery with an FS laser.
- The patient must be informed about, and consent to, the additional out-of-pocket-costs in advance.
- A refractive lens exchange is not medically necessary and therefore is not covered

Source: ASCRS/AAO Guidance
FS Laser Guidance

• A surgeon may use the FS laser for the cataract surgery, but neither the surgeon nor the facility may obtain additional reimbursement from either Medicare or the patient over and above the Medicare-allowable amount.
• Neither the surgeon nor the facility should use the differential charge allowed for implantation of a premium refractive IOL to recover all or a portion of the costs of using the FS laser for cataract surgical steps.

FS Laser Guidance

• Patient-shared pricing with one cost for a premium IOL, and a higher cost for the additional use of the FS laser to perform the cataract surgical steps, should not be offered.
• Medicare patients may be charged a fee for performing astigmatic keratotomy, assuming that they were informed about, and consented to, the non-covered charges in advance.

FS Laser Guidance

• Because astigmatic keratotomy for refractive indications is a non-covered service, a higher fee can be charged for performing it using the FS laser, instead of with a metal or diamond blade.
• While most astigmatism treatment is not covered, Medicare does cover the treatment of large degrees of astigmatism that were the result of previous ocular surgery. Local coverage determinations may apply.

FS Laser Guidance

• Advertising: Promotional claims must be consistent with the best available clinical evidence and should not be deceptive or misleading to patients.
• Transparency: Patient-shared pricing should be discussed openly with the patient. Increased charges should be explained and documented.

Hint: ASC Buys IOLs

• Best practices entail ASC purchases IOLs from manufacturer
• Avoid giving the appearance of payment for referral between ASC and surgeon

OIG Advisory Opinion: Co-management

• OIG publishes opinion on co-management involving non-covered services associated with premium IOLs
• Tightly worded favorable opinion

Source: OIG Advisory Opinion No. 11-14
Co-management Best Practices

- Proper motivation consistent with professionalism
- Surgeon decides suitability for surgery
- Surgeon and patient discuss postop care options
- Co-management depends on what is best for patient
- Document patient’s choice
- Adhere to Medicare instructions
- Follow other third party payers’ policies
- Ensure fair market value for services performed
- Transparent billing so patient knows amount paid to each provider

Co-management Deluxe IOLs

**Do**
- Assign roles and responsibilities
- Reduce surgeon’s refractive fee
- Collect separate payment for noncovered refractive services performed
- Obtain two financial waivers for noncovered services

**Do not**
- Extrapolate Medicare’s 80/20 rule to determine value of noncovered services
- Comingle funds
- Factor in the cost of IOL
- Fail to provide patient with clear description of co-management arrangement

Summary

**Do’s**
- Pre-testing
- Clearly explain choices
- Document selection
- Collect $ before surgery
- Separate MD and ASC
- Patient pay for SCOCA

**Don’ts**
- Use one-size-fits-all
- Patient pay for cat sx
- Disguise fees
- Comingle funds
- Co-manage all cases
- MD purchase IOL

WHAT YOU NEED TO DO NOW:

- Read this notice, so you can make an informed decision about your care.
- Ask us any questions you may have after you finish reading.
- Choose an option below about whether to receive the __________________ listed above.

Note: If you choose Option 1 or 2, we may help you to use any other insurance that you might have, but Medicare cannot require us to do this.

OPTIONS: Check only one box. We cannot choose a box for you.

[ ] OPTION 1. I want the items or services listed above. You may ask to be paid now, but I also want Medicare billed for an official decision on payment, which is sent to me on a Medicare Summary Notice (MSN). I understand that if Medicare doesn’t pay, I am responsible for payment, but I can appeal to Medicare by following the directions on the MSN. If Medicare does pay, you will refund any payments I made to you, less co-pays or deductibles.

[ ] OPTION 2. I want the items or services listed above, but do not bill Medicare. You may ask to be paid now as I am responsible for payment, and I cannot appeal if Medicare is not billed.

[ ] OPTION 3. I don’t want the items or services listed above. I understand with this choice I am not responsible for payment, and I cannot appeal to see if Medicare would pay.
